

DCM Report Feb 1, 2017

Attended the Area committee meeting in January. An Ad Hoc committee was formed that I joined to determine if the Area needs to have a technology committee. The committee has so far determined that a technology committee is probably needed and is in the process of defining guidelines for the area committee.

I was happy to see our district represented by a few of us at the committee meeting. Thanks to Guy for coming out.

Yours in service

Laura Manaugh
